Anniversary Discount Program (Page 26))

The Company provides a program called MobilePerksSM in which eligible customers can earn award points, on a per number basis, for achieving tenure and usage milestones. Credit may also be earned by eligible customers through participation in other marketing programs that may not require the use of tariffed services. Customers may redeem these Award Points for airtime credits, or the customer may redeem Award Points for various travel and leisure awards. Customers are automatically enrolled in the program when they achieve average usage in two consecutive months of 200 minutes or more. Redemption of airtime credits for cash value is prohibited. Anniversary dates for existing customers at the time of program initiation will be calculated beginning with the first day the program is in effect. For eligible customers who activate service after the program initiation date, the anniversary date will be based on the date they attain eligibility. The awarding of airtime credits is suspended if the customer fails to make timely payment for all charges, as described in 4.1.2. Only customers in good standing, as described in 4.1.2., are eligible to redeem award points for airtime credits. Once the customer returns to good standing, any airtime credits accrued during the suspension period will be applied and will be eligible for redemption. Customers will be notified periodically regarding total accrual of award points
